Benefits of Accepting Crypto Payments

Sell More

- Grow your market size by reaching anyone, anywhere
- Reach customers without credit cards and bank accounts
- Give your customers more payment options

Stay Secure

- Eliminate chargebacks and disputes with crypto payments (all transactions are final)
- Keep customer payment information confidential

Save Money

- CoinPayments only charges 0.5% per transaction (compared to 3-5% from traditional card processors)

Stay Current

- Demonstrate forward thinking to your customers by embracing new technology

Accept Crypto Payments In-Store and Online

1

Checkout

Customers select to pay in Bitcoin or any coin via CoinPayments with real-time rates appearing on screen.

2

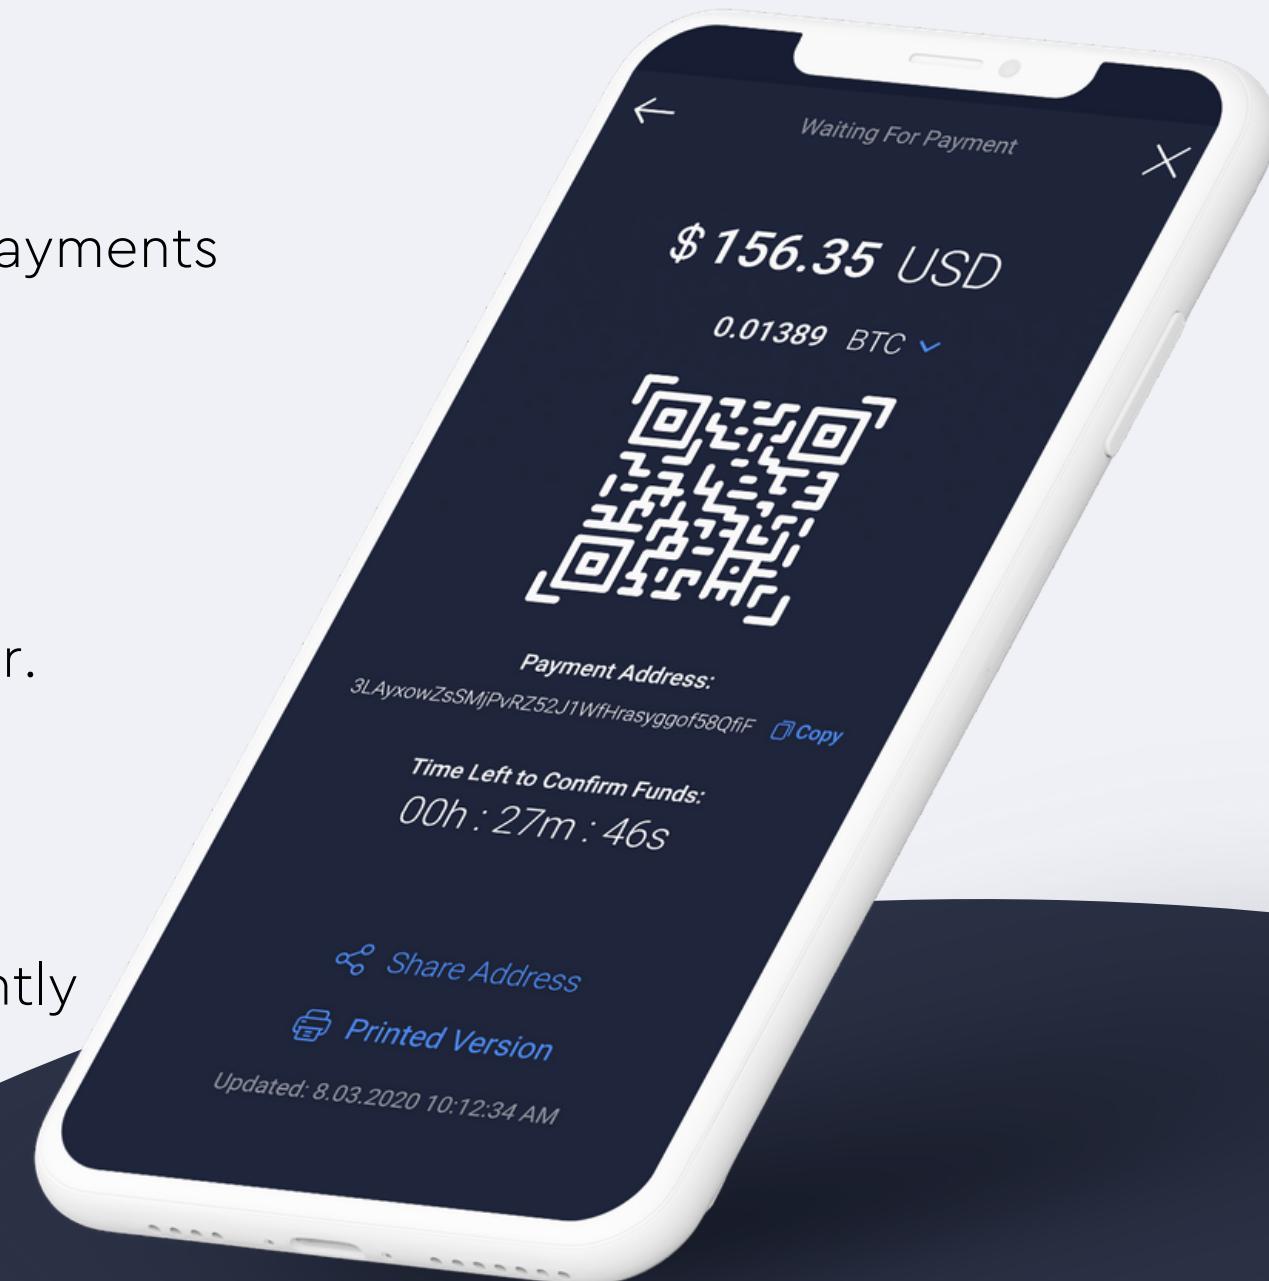

Payment

Payment address or QR codes are displayed with a timer.

3

Payment Confirmation

We confirm the transaction on the blockchain and instantly notify you of payment receipt.

Top Features

- Easily accept crypto payments using shopping cart plugins and APIs
- Customized payment buttons for your online store
- Accept, store & manage all crypto assets in a secure custodial wallet
- Automatically forward payments to crypto wallets of choice
- Auto convert cryptocurrencies to stablecoins to avoid volatility
- Use our easy-to-use POS app for in-person payments
- Fiat settlement options available (in some markets) via third party financial service partners

Ecommerce Integrations

We offer

- Prebuilt ecommerce plugins and integrations for the smoothest transition into crypto
- Custom APIs to create a unique checkout experience for your customers
